

6. State Statistical Work Program

The State Statistical Work Program (hereinafter referred to as Program) is the basis for implementation state statistics on the territory of the Republic of Armenia.

Program includes statistical information necessary for the observation of the economic, demographic, social and environmental situation in the country, taking into account the availability of resources, the burdens on respondents and the cost-effectiveness. The program is developed based on the study of the demand of statistical information users.

For the determination of perspective directions of the state statistical activity the **Three-year Program** is developed, while for the definition of actions providing with realization of these directions – **Annual Program**. The Three-year Program is adopted by the National Assembly on presentation of the Government.

6.1. Three-year Program

The Three-year Program includes the main directions of the state statistical activity in **economic, demographic, social and environmental fields** of the country. Report on implementation of the three-year program is submitted to the National Assembly before the 1 May of the next year.

6.2. Annual Program

The Annual Program is adopted by the Council in a month after the adoption of the State Budget of the Republic of Armenia on presentation of the President of NSS of RA and published. It determines the list of indicators (and their collection, processing, summarizing and publishing work) included in the state statistical accounting, which is implemented through co-ordination by NSS of RA, as well as the work targeted to improvement of their accounting.

The Annual Program includes:

- ❑ list of statistical work, terms of their implementation, the coverage, as well as types of observation, periodicity of the presentation of statistical indicators,
- ❑ list of surveys that should be implemented by the Service, published statistical handbooks, bulletins and other publications and their periodicity,
- ❑ list of organizations, state bodies and local self-government and other administrative registers and list of summary statistical information (data), presented by them,
- ❑ list of statistical information users, composition of information, provided free of charge and order of its presentation.
