5. SURVEY RESULTS

5.1. Economic Activity, Revenue and Sizes of the Organizations Having Implemented Investments in the Real Assets

The 81.6% out of the industrial, transport and communication organizations covered by the survey implemented an economic activity at the observation period, the 16.6% was not active, while the 1.8% was not found out (Annex 2, Tables 1, 2).

Distribution of the surveyed organizations by operating and not being discovered factors is reflected in the Diagram 2.

![Diagram 2. Distribution of the surveyed organizations by operating and not being found out factor.](image)

The 61.5% of the organizations covered by the survey is located in Yerevan city. Their economic activity is comparatively higher (82.9%) than the average republican and lower than the share of not active organizations (14.5%). Meanwhile, the 62.5% of the surveyed active organizations is located in Yerevan city, 7.8 per cent- Kotayk, 5.6 per cent- Shirak, 5.1 per cent- Lori marzes (Annex 2, Tables 3, 4).

Kotayk marz (7.6%) takes the second place in the organizations’ coverage in the survey, where the economic activity of organizations is higher than the average republican and comprised 83.8%. Among the surveyed organizations the higher economic activity is characteristic of organizations located in Syunik marz (88.2%). Economic activity of the organizations is low in Vayots Dzor, Arnavir and Gagharkunik marzes, where the location of organizations fluctuates 1.9-3.2% (Annex 2, Tables 3, 4).

Economic activity of the organizations discovered by the survey is different by marzes and reflected in the Diagram 3.
Diagram 3. Economic activity of the industrial, transport and communication organizations discovered by the survey, by marzes.

It is noticeable that about 77% of the active organizations covered by the survey was engaged in industrial activity, 11% - transport, 2% - communication, while 10% - other (Annex 2, Tables 3, 4).

The prevalent share of volume of net revenue from realisation of the product (work), services of the active organizations covered by the survey accrued to organizations of Yerevan city (73.1%), by the way, it comprised 62.6% in industry, 97.4% - in transport, 97.0% - in communication (Annex 2, Tables 5,6). The given indicators are comparably higher in the organizations of Kotayk marz (15.3%). Distribution by marzes of net revenue of the active organizations covered by the survey is reflected in the Diagram 4.
Diagram 4. Distribution of net revenue of the active organizations by marzes.

It should be indicated that more than 80% of the active industrial organizations included in the survey, by number of employees, comprised micro and small organizations. Among transport and communication organizations, this indicator comprised 54.1 and 77.2 per cent.

Distribution of organizations having implemented investments in the real assets, by number of employees, is characterised in the below mentioned Table 3.
