<sup>◇</sup> The data are verified.

**Note:** All absolute indicators are shown at current prices.

<sup>1</sup> Data of IEA for January-February 2015 are revised based on the weights of GDP by economic activities of 2014.

<sup>2</sup> In January, February, March and April 2015 foreign trade indicators are not complete, cause mutual trade indicators collection between the countries of EEC is not complete, that's why the data will be clarified further. The incomplete data collection is stipulated by the fact that still not all the respondents are submitting the statistical form on "The accounting of goods transportation" approved by the Annex 2 of the Decision № 447-N of the RA Government dated 23 April 2014, since the introduction of the electronic system of the submission of those forms is not yet completed.
