

Sub-process 2.1 Design outputs

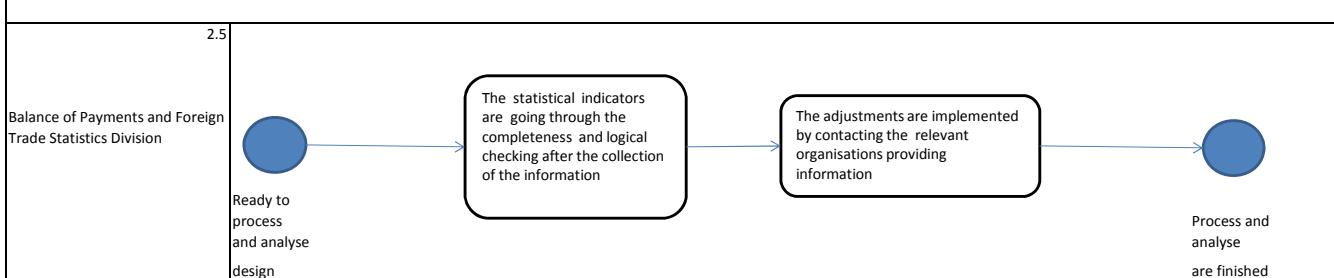

Sub-process 2.2 Design variable description

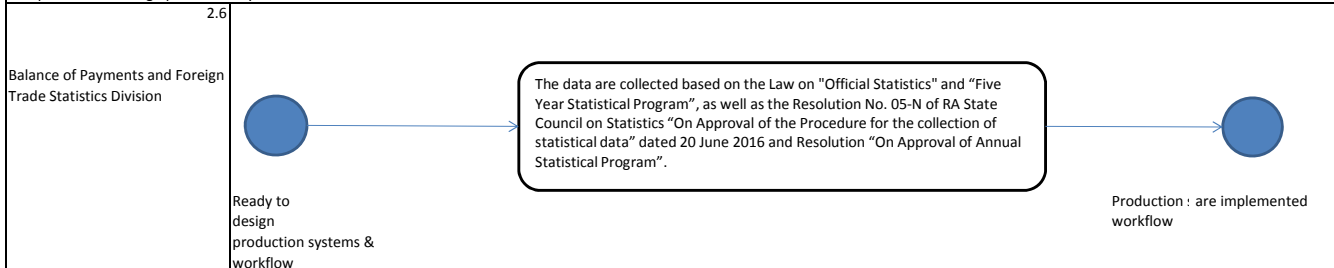

Sub-process 2.3 Design data collection

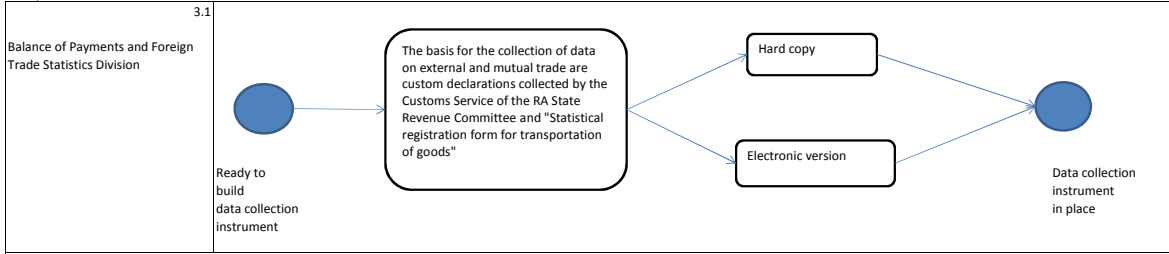

Sub-process 2.5 Process and analyse design

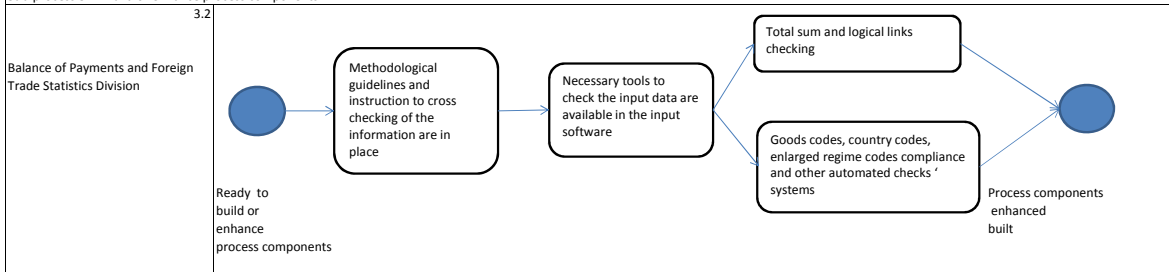

Sub-process 2.6 Design production systems & workflow

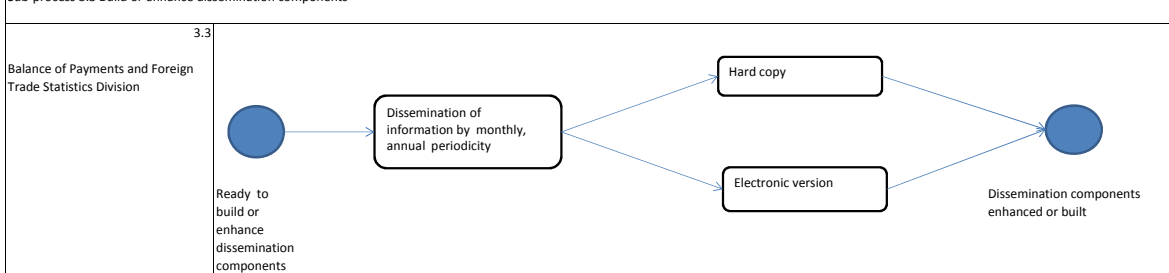

Statistics of foreign and mutual trade/ Trade of goods by groups of goods, trade of commodities by CIS and other countries of the world, import of energy resources (monthly)- Phase 3 Build
 Sub-process 3.1 Build data collection instrument

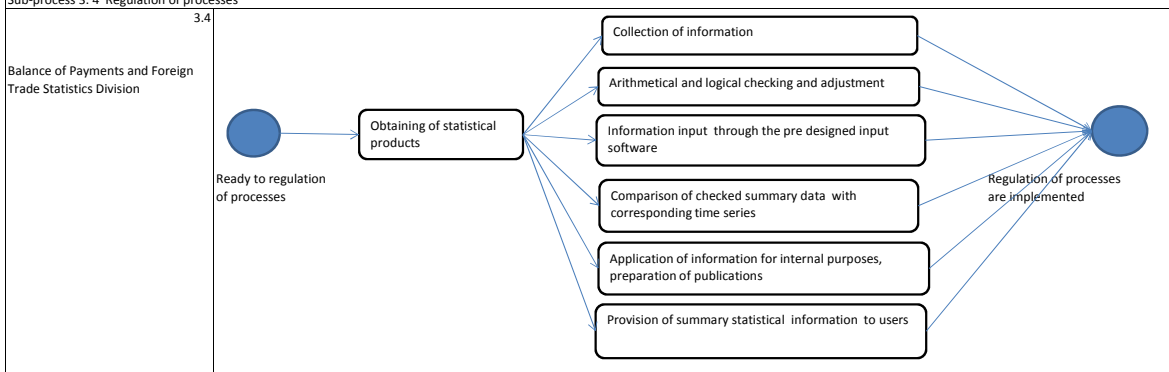

Sub-process 3.2 Build or enhance process components

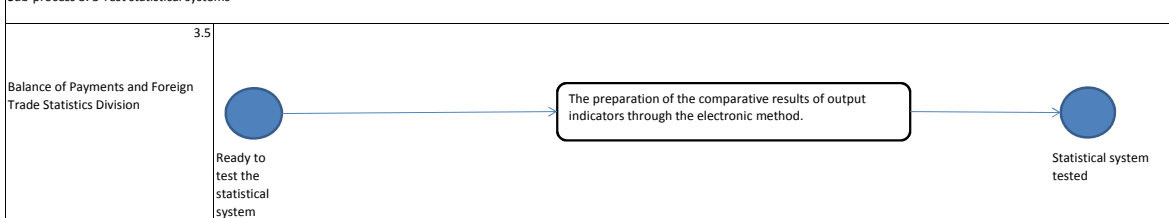

Sub-process 3.3 Build or enhance dissemination components

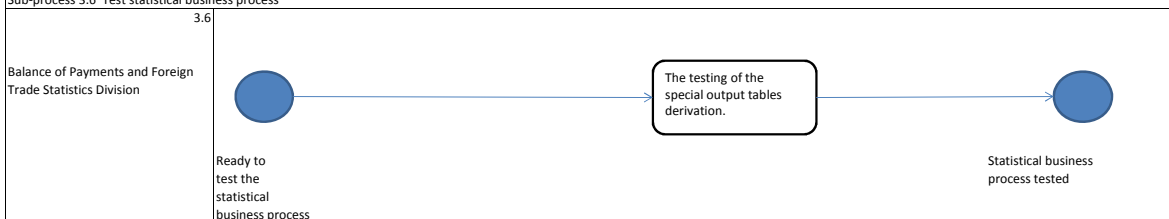

Sub-process 3.4 Regulation of processes

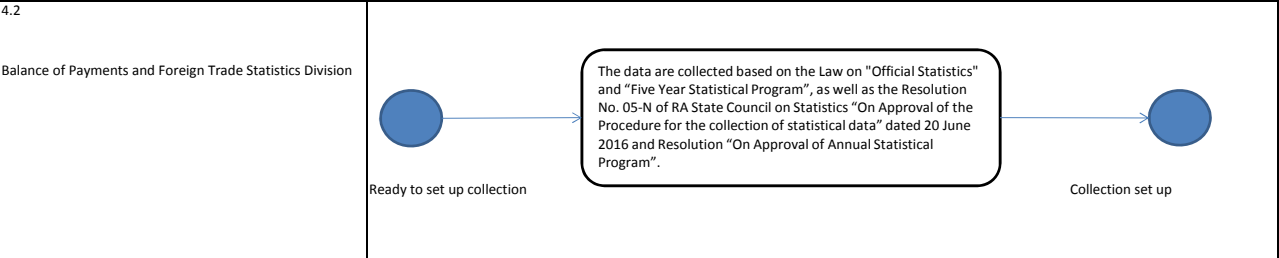

Sub-process 3.5 Test statistical systems

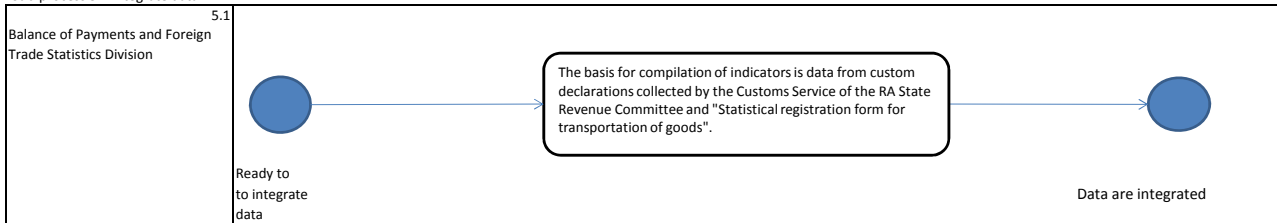

Sub-process 3.6 Test statistical business process

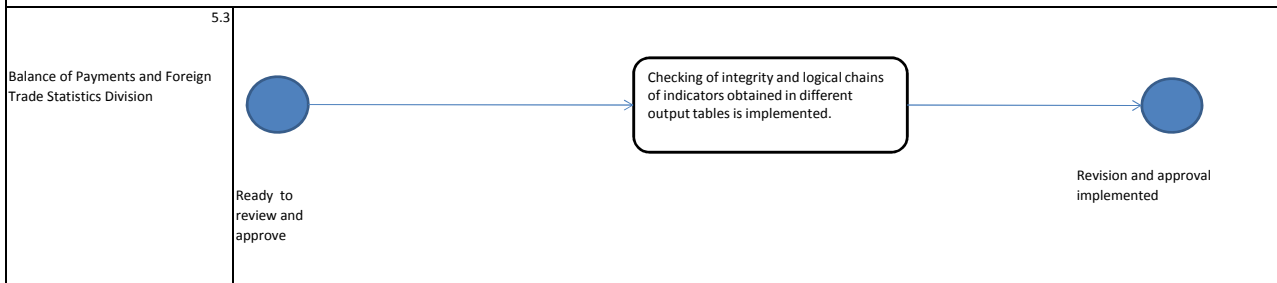

Sub-process 4.2 Set up Collection

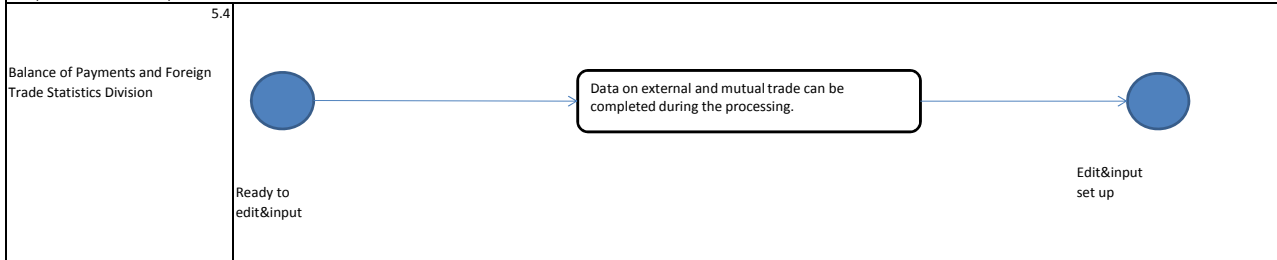

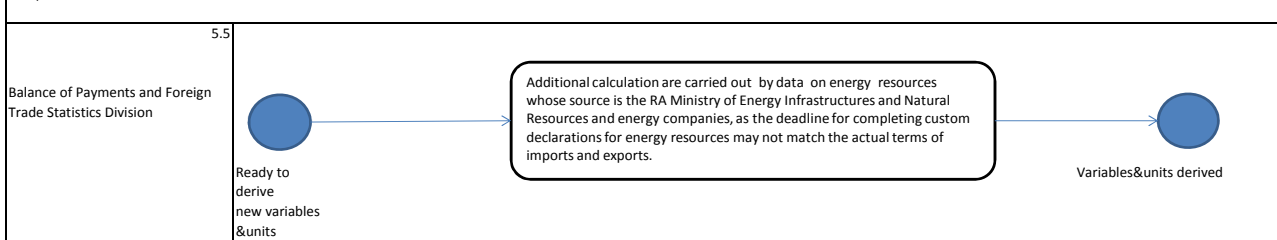

Sub-process 5.3 Review and approval

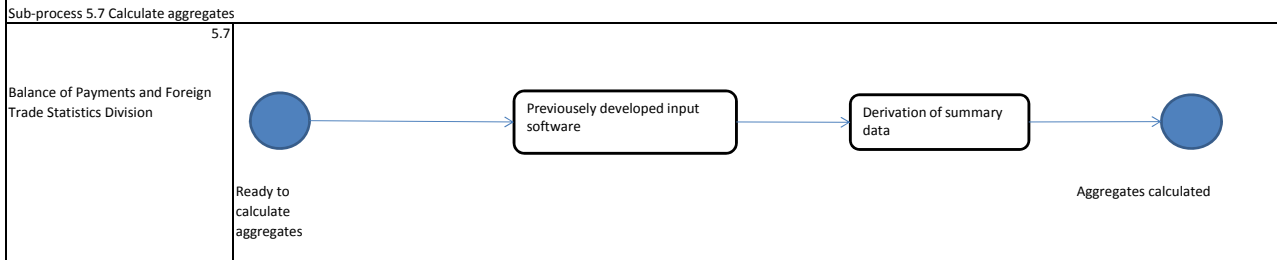

Sub-process 5.4 Edit & input

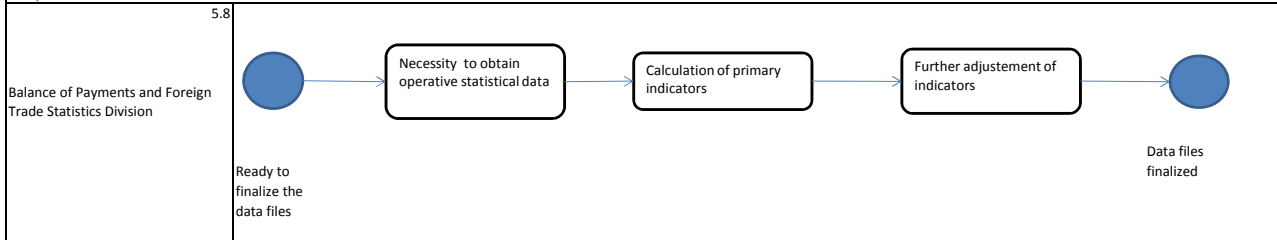

Sub-process 5.5 Derive new variables&units

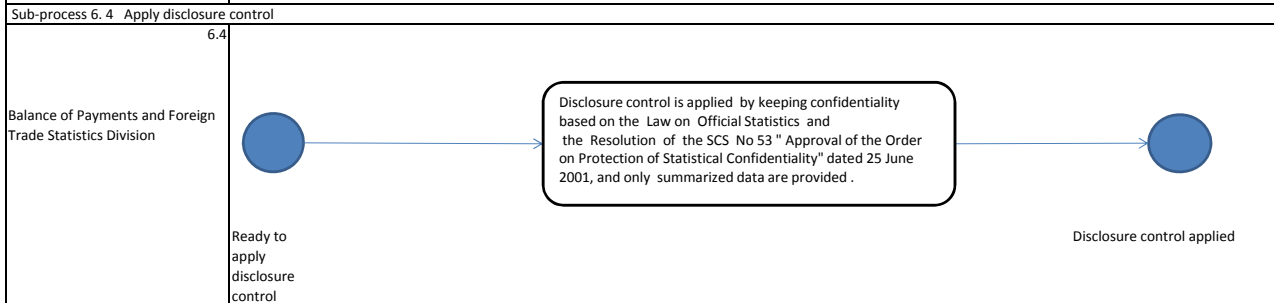

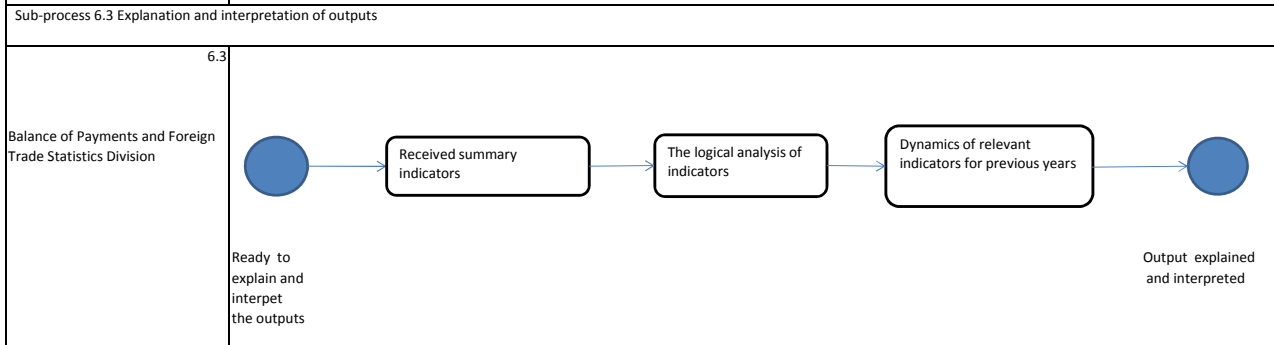

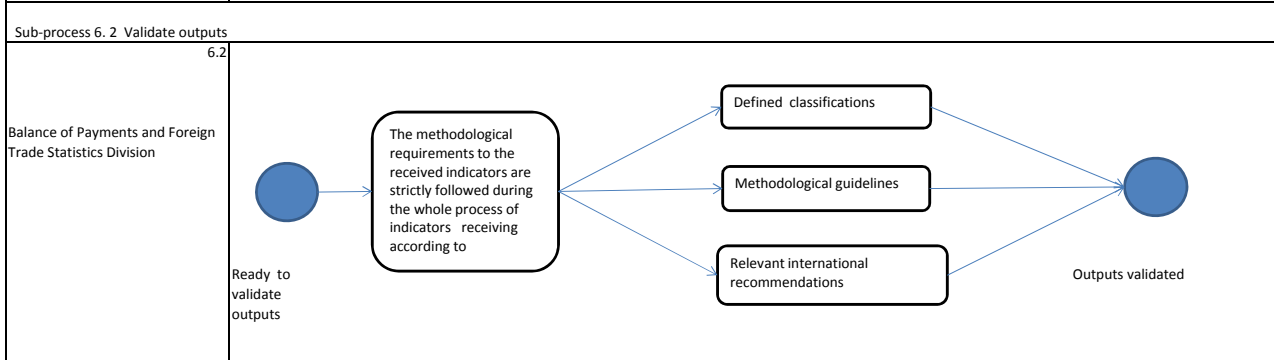

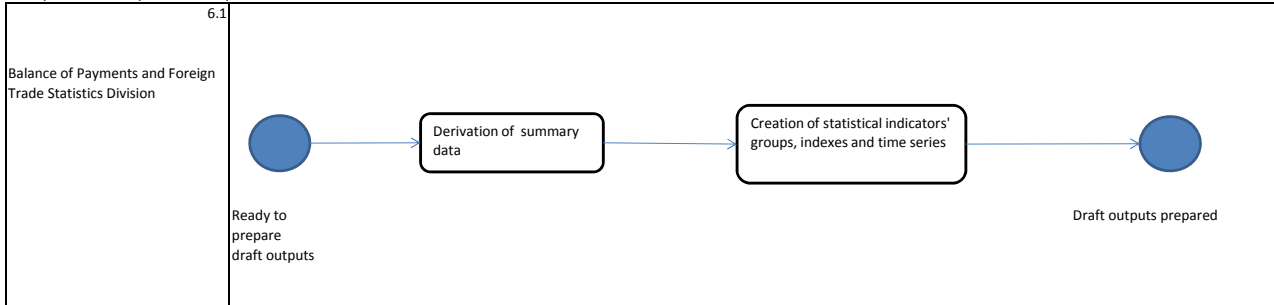

Sub-process 5.7 Calculate aggregates

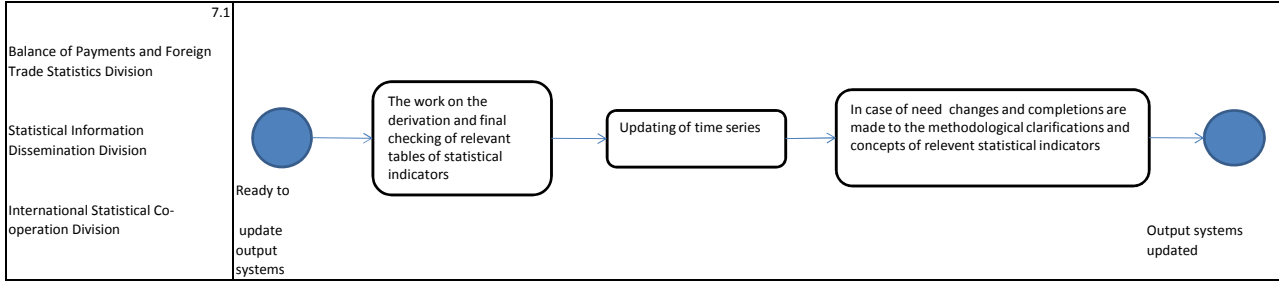

Sub-process 5.8 Finalize data files

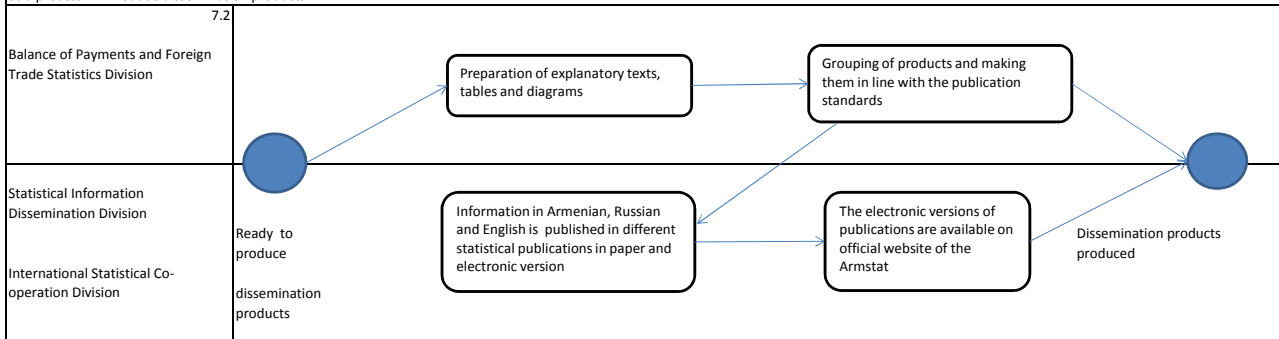

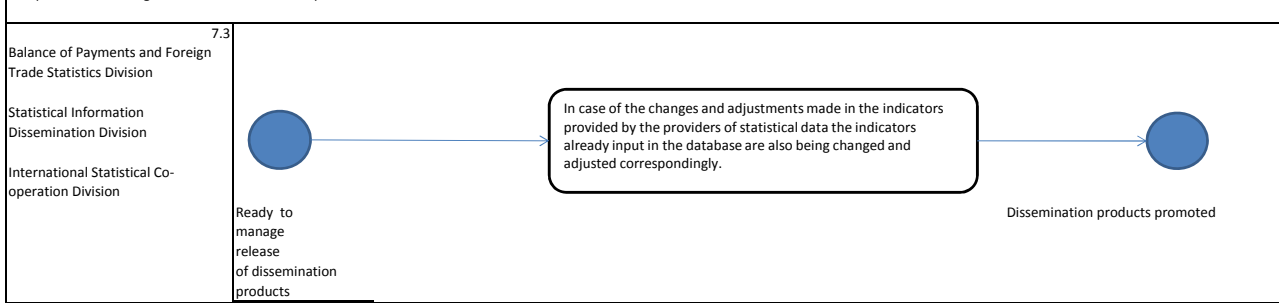

Sub-process 7.1 Update output systems

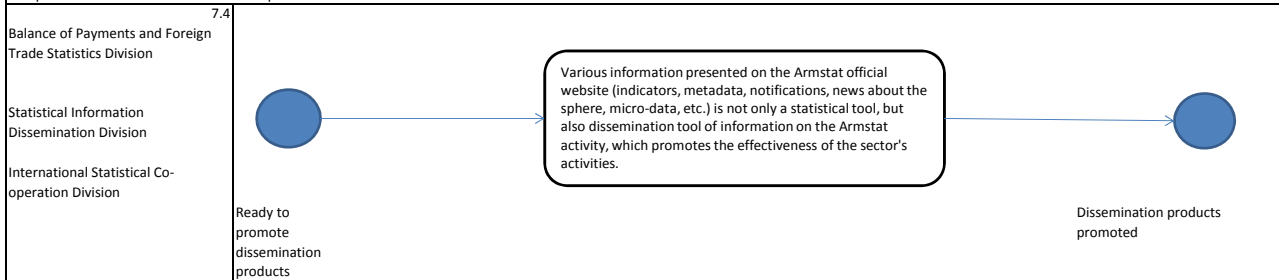

Sub-process 7.2 Produce dissemination products

Sub-process 7.3 Manage release of dissemination products

Sub-process 7.4 Promote dissemination products

Sub-process 7.5 Manage user support
